NWOET PD Fusion

- *Google Apps for Education*
- *Google Classroom*
- *Microsoft Office 365*
- *1:1/BYO Classroom*
- *Integrating Tech Hardware*
- *Needs Assessment*

This inclusive program connects strategic teaching methods with accomplished trainers embracing the district goals, teacher needs and current district technology in order to design and implement the perfect professional development plan.

NWOET will work hand in hand with administrator(s), technology coordinators and teachers to develop a professional plan that will optimize current district technology. Once developed, professional development will be provided to the district, followed by an evaluation of the plan.

Sign up for a 30, 40 or 80 hour professional development packages. Call NWOET at 800-966-9638 for more information.

Choose between...

● Google Apps for Education

NWOET will help establish a foundation of educational tools through Google to increase student engagement and instructional success.

- Set up a Google Apps for Education Account
- Managing devices through Google Administration
- Help teachers become more proficient with the endless opportunities available with Google Apps
- Prepare teachers to implement Google with students in order to motivate and engage

● Google Classroom

NWOET will assist with the set up of Google Classroom, as well as Google Apps for Education.

- Create Classrooms for all your core classes
- Generate student engagement through classroom content
- Initiate and maintain communication with students and colleagues
- Gain instructional support with lessons and classroom management

● Microsoft Office 365

NWOET will support the setup and management with Microsoft Office 365 to improve student learning and teacher productivity.

- Set up a Microsoft Office 365 educational interface
- Instructional support for teachers and students
- Offer plans to utilize Office 365 with student devices
- Develop ways of integrating the Office tools in class instruction

● 1:1/BYO Classroom

NWOET will assist with the execution of an effective 1:1/BYO design for a district.

- Meet with district administration, board members and parents to create a plan for a 1:1/BYO model
- Create a timeline for the 1:1/BYO model
- Employ research-driven PD to staff and students
- Monitor the progress of the 1:1/BYO plan

● Integrating Tech Hardware

NWOET will evaluate a district's current technology inventory and implement a plan to prepare teachers to utilize those tools more effectively in the classroom.

- Assess the complete district hardware inventory
- Develop professional development to fuse these technology tools with the current district goals
- Oversee the implementation of new technologies
- Improve student growth scores with proven, effective educational tactics

● Needs Assessment

NWOET can help a district identify the strengths and needs of professional staff including:

- 21st Century Strategies
- Tech Tools Self-Assessment
- PD Requests – Ranked
- Formative Assessments
